

## Menu Availability

Please note that from 2:30 to 6pm in the afternoon we only offer a limited menu.

Please ask your waiter for more details of what is available.

## Separate Billing

Sorry but we are not able to provide separate billing in the Bar & Bistro area, if you require full waitron service with separate billing, please check for availability in our Main A La Carte Restaurant.

## Service Charges

Service Fees are not included in our menu prices and in line with many establishments throughout Europe, America and Africa we do charge a 10% service fee on all tables of 8 guests or more. If, in such a case, you are not happy with the service that you receive then please make it known to a member of management and they will certainly make the necessary deductions. Most importantly they will also be made aware of the shortfalls of the staff concerned and areas that require more training and encouragement.

We train our waitrons to provide the best service at all times.

The incentive for that is;  
having pride in their work and the simple fact that the happier you are - the more tip they will receive!!!

Thank you for choosing to dine with us at The Raft, we value your custom and wish you a pleasant meal and an all round enjoyable experience!
